

JULIO IGLESIAS VISITS VINS I LICORS GRAU IN 5-08-2010

Julio Iglesias made the most of his stay on the Costa Brava where he was performing at the Cap Roig festival to pay a visit to Vins i Licors Grau in Palafrugell. The singer toured the 1,200 m² wine store with the Grau family, to the surprise of the many customers making their purchases there.

Julio Iglesias remarked on the wide range of products on offer and the scale of the premises, and paused to comment on the excellence of the Montecastro wine in which he is an investor. He went directly from the store to the Cap Roig gardens for sound tests followed by the concert.
